Energy Exhibitions and Conferences
at The smarter E Europe

THE SMARTER EUROPE – ACCELERATING INTEGRATED ENERGY

WE OFFER YOUR DELEGATION ATTRACTIVE BENEFITS

A visit to The smarter E Europe exhibitions offers the delegation participants the opportunity to exchange experiences with key players in the energy industry. You will also benefit from these services:

- Free entry tickets to the exhibitions
- Free attendance at the exhibition forums
- Discounted conference tickets
- Easy registration in advance
- Tours on the solar roof of Messe München

MUNICH IS WORTH A VISIT!

Munich is not only an attractive exhibition venue, it also offers numerous impressive attractions. For example, you can end your day at the exhibition in one of the many beer gardens or in the famous English Garden. Or you can devote yourself to the breathtaking Romanesque and Renaissance architecture in the the heart of the city. Whatever you decide, everything is within easy reach thanks to Munich's excellent public transport network.

WELCOME AT THE SMARTER E EUROPE

“Accelerating Integrated Energy Solutions” – this is the goal of The smarter E Europe, Europe’s largest alliance of exhibitions for the energy industry. The aim is to create a future-oriented energy world by shining a spotlight on renewable energies, decentralization and digitalization as well as cross-industry solutions from the electricity, heat and transport sectors for a sustainable 24/7 energy supply.

Spanning four exhibitions, The smarter E Europe brings together relevant players from around the world, showcasing the latest market developments, trends and technologies.

- **Intersolar Europe** – The world’s leading exhibition for the solar industry
- **ees Europe** – The continent’s largest and most international exhibition for batteries and energy storage systems
- **Power2Drive Europe** – The international exhibition for charging infrastructure and e-mobility
- **EM-Power Europe** – The international exhibition for energy management and integrated energy solutions

More than 115,000 visitors from over 160 countries, including a large number of delegations, come to The smarter E Europe to find out more about the latest innovations and international markets.

Visit The smarter E Europe 2024 with your delegation and meet the international players of the energy future from the most influential markets! We look forward to your visit.

INTERSOLAR EUROPE

As the world's leading exhibition for the solar industry, Intersolar Europe demonstrates the enormous vitality of the solar market. For more than 30 years, it has been providing a networking opportunity for the key players – from manufacturers, suppliers and distributors to installers, service providers, project developers, planners and start-ups – all under the motto "Connecting Solar Business". It focuses on the latest trends, developments and business models.

EES EUROPE

Each year, ees Europe, Europe's largest and most international exhibition for batteries and energy storage systems, provides a networking opportunity for the industry's key players, such as manufacturers, distributors, project developers, systems integrators, as well as professional users and suppliers – all under the motto "Innovating Energy Storage". It focuses on the latest technologies, trends and market developments.

POWER2DRIVE EUROPE

Power2Drive Europe is the international exhibition for charging infrastructure and e-mobility. Under the motto "Charging the Future of Mobility", it is the ideal industry meeting point for manufacturers, distributors, installers, fleet and energy managers, charge point operators, e-mobility service providers and start-ups. The exhibition focuses on the latest technologies, solutions and business models for a sustainable mobility world.

EM-POWER EUROPE

EM-Power Europe is the international exhibition for energy management and integrated energy solutions. Under the motto "Empowering Grids and Prosumers" it provides a platform for grid operators, utility companies and municipal utilities, project developers, installers, as well as energy consultants, managers and service providers. The focus is on the latest trends and developments for a holistic, renewable energy system.
