

**600+ providers of charging infrastructure, electric vehicles, traction batteries and mobility services**

## Securing a lead in the growth market of electromobility – good reasons to register for Power2Drive Europe 2026:

- Leading international exhibition focusing on electromobility and charging infrastructure in the renewable energy system
- Successful industry meeting place for manufacturers, wholesalers, project developers and suppliers of the e-mobility industry and the energy sector
- Products and innovations for charging systems, electric vehicles and EV-batteries
- Verified figures and quality: Quality seals from AUMA and FKM ensure numbers you can rely on
