06/18/2026

At Power2Drive 2026, Rheidon Tech debuts the WB700 — a three-phase wallbox (up to 22 kW) built for the way European homes now use energy. Dynamic load management, solar surplus charging, and certified MID metering come together in one unit designed to respond to different national grid demands. Rheidon's third consecutive year at the show. Hall B6, Stand 670.
